Publications of the Zoological Institute, St. Petersburg. 1. "Ezhegodnik" and "Trudy"

T.A. Asanovich, L.P. Grozdilova & I.M. Kerzhner

Asanovich, T.A., Grozdilova, L.P. & Kerzhner, I.M. 2007. Publications of the Zoological Institute, St. Petersburg. 1. "Ezhegodnik" and "Trudy". Zoosystematica Rossica, 15(2), 2006: 195-213.

Information on the pagination, dates of publication and particular titles of volumes is given for the two main serials of the Zoological Institute, St. Petersburg.

T.A. Asanovich, L.P. Grozdilova & I.M. Kerzhner, Zoological Institute, Russian Academy of Sciences, Universitetskaya nab. 1, St.Petersburg 199034, Russia.

HISTORY

The Zoological Institute of the Russian Academy of Sciences, St.Petersburg, is the largest and the oldest zoological institution in Russia. It was founded as the Zoological Museum of the Imperial Academy of Sciences in 1832; the museum was renamed as institute in 1931.

Until 1896, zoologists working in the museum published their papers in general periodicals and serials of the Imperial Academy of Sciences ("Bulletin", "Mйmoires", "Zapiski"), proceedings of various scientific societies, and domestic and foreign journals. In 1896, by initiative of Director F.D. Pleske, the museum started to publish its "Ezhegodnik" (Annual). This was the first serial published by a Russian academic institution. The serial started as annual, but its publication was interrupted in 1918-1922. Since 1932, "Ezhegodnik" was replaced with "Trudy" (Proceedings), with a new numeration of volumes. The "Trudy" were published irregularly, usually several volumes in one year.

The main purpose of this paper is to clarify, insofar it is possible, the dates of publication, as several thousands of new taxa from all groups of animals were described in the serials discussed and precise dates of publication are sometimes needed to solve the problem of priority. An additional aim is correlation between the volumes of the "Trudy" and their particular titles, as only the latter are sometimes cited in bibliographies.

SOURCES AND METHODS OF DATING

The following explanations concern the terminology used in the text and the tables.

Imprinted date: date given in the work. Usually it is the year at the title page, but also the month

is indicated elsewhere in all issues of the "Ezhegodnik" and in first volumes of the "Trudy".

Signed to press: date when the corrected last version of proofs is ready and approved for printing the edition. The printing starts after this date, sometimes with a long delay, so that the actual date of publication is from about two weeks to several months (exceptionally, a year or more) later than the date when the issue is signed to press.

Receipt of edition: date when the edition of the "Trudy" was received either by the Library of the Academy (marked B in Table 3) or by the publishing group of the Zoological Institute (marked Z). In the Academic Library, this date was stamped (not in all cases) on the back covers of books. For volumes published by the Zoological Institute directly (not via publishing houses), receipt of the edition from the typography was registered by T.A. Asanovich and (in 1966) by A.A. Strelkov; their notes were used in preparation of this paper.

Record in current bibliographies: date from current book-recording Russian bibliographies, "Knizhnaya letopis" (marked L in Table 3) and "Knizhnoe obozrenie" (marked O in Table 3). "Knizhnaya letopis" (Book chronicle), issued since 1907, is a magazine informing on all books and brochures published in the country and received as compulsory copies. "Knizhnoe obozrenie" (Book review) is a newspaper published since 5 May 1966; among other contents, it includes lists of books published in 1000 or more copies, of which advance copies ("signal'nyi ekzemplyar") are received by editors of the newspaper (such copies were sent by the Publishing House "Nauka" just before the binding of the edition). Both bibliographies are published weekly or almost so. Volumes of the "Trudy" are registered under their particular titles. Dates from the "Knizhnaya letopis" are either the indicated last day for which the received books were included in the issue or (since 1971) the day when the issue was given to type-setting. No effort was made to examine all issues of "Knizhnaya letopis".

Registration in the Library of the Zoological Institute. Volumes of the "Trudy" issued by the Publishing House of the USSR Academy of Sciences (since 1964, Publishing House "Nauka") were first received by the Library of the Academy of Sciences and then ordered from there by the Library of the Zoological Institute. Volumes published directly by the Zoological Institute were received by the Institute Library from the authors or editors, frequently with a long delay. The preliminary registration (date of receipt of copies) was made in handwritten notes by the library head (L.P. Grozdilova; for 1983-1984 by S.N. Buzina). The final registration was made by the library staff in the card catalogue of the library, usually with some delay.

The following provisions apply to the date of publication for nomenclature purposes (International Code of Zoological Nomenclature, Art. 21). The imprinted date is deemed to be the correct date of publication in the absence of evidence to the contrary (such evidence exists, for instance, for "Ezhegodnik" vol. 29). If the date is incomplete, the last day of the stated month or year is deemed to be the date of publication. If the imprinted date is incorrect, the earliest day on which the work is demonstrated to be in existence as a published work is to be adopted. Dates in the Julian calendar must be re-calculated to those in the Gregorian calendar.

The dates of receipt of the edition or of record in "Knizhnoe obozrenie" are the actual dates of publication. The dates of signature to press are earlier, and those of the registration in the Library of Zoological Institute or record in "Knizhnaya letopis", usually more or less later than the actual date of publication.

"EZHEGODNIK"

General

The volumes of "Ezhegodnik" were published in 4 issues ("livraisons"), but some issues were double and some volumes were not subdivided into issues. The text was subdivided into 3 parts: "Compte-rendu du Musée Zoologique" ("Informations sur l'activité du Musée Zoologique") with pagination in Arabic numerals (starting with vol. 13, zero was added before the actual page number), "Mémoires" again with pagination in

Arabic numerals, and "Nouvelles and faits divers" (later, "Itinéraires; nouvelles and faits divers") with pagination in Roman numerals, each part with continuous pagination. In volumes 23-32, the text has not been subdivided into parts, except for indexes.

Oshanin (1911) published a bibliographic review of the first 15 volumes of "Ezhegodnik" with information about editors of the volumes, collation and dates of publication of volumes and issues, list of papers, and systematic indexes of papers and keys.

The subdivision of the volumes into "livraisons", their pagination and dates are given in Table 1.

Changes of the title

The title of the serial (and its translation into French) has been changed as follows:

Vol. 1 to vol. 21, no. 1: "Ezhegodnik Zoologicheskago muzeya Imperatorskoi akademii nauk" ("Annuaire du Musée Zoologique de l'Académie Impériale des Sciences de St.-Pétersbourg"; starting with vol. 19, no. 2, "...de Petrograd").

Vol. 21, no. 2-3 and vol. 22, nos 1-3: "Ezhegodnik Zoologicheskago muzeya Akademii nauk" ("Annuaire du Musée Zoologique de l'Académie des Sciences").

Vol. 22, no. 4 to vol. 24: "Ezhegodnik Zoologicheskogo muzeya Rossiiskoi akademii nauk" ("Annuaire du Musée Zoologique de l'Académie des Sciences de Russie").

Vol. 25 to vol. 32: "Ezhegodnik Zoologicheskogo muzeya Akademii nauk Soyuza Sovetskikh Sotsialisticheskikh Respublik" ("Annuaire du Musée Zoologique de l'Académie des Sciences de l'Union des Républiques Sovietiques Socialistes"; in vol. 32, "... de l'URSS").

The name of the city in which the serial was published has undergone the following changes:

Vol. 1 to vol. 19, no. 1 – St.Petersburg; Vol. 19, no. 2 to vol. 24 – Petrograd; Vol. 25 to vol. 32 – Leningrad.

Dates of publication

In each issue, on the verso side of the title page, or after the contents, or in both instances a printed statement in Russian was given: "Printed by order of the Academy of Sciences. [Month, year]. Permanent secretary [Name]". In case of discrepancies, the latest of the imprinted dates is given in Table 1. The month before 1918 corresponds to that in Old (Julian) calendar; to calculate the date in New (Gregorian) calendar, 12 days should be added to the date before 1900 and 13 days, to the date in 1900-1917.

Separates

Separates were made of all papers. Those published up to 1918 inclusive contained at the end or at the cover information on the volume of "Ezhegodnik" and the date of publication of the separate (month and year). These dates are not always identical to the imprinted dates of respective issues of "Ezhegodnik", and in many cases they are earlier by one or several months. For instance, separates of two papers by V.L. Bianchi from vol. 1, no 1 (July 1896) are dated "April 1896" and "June 1896" and that from vol. 3, no. 3-4 (March 1899) is dated "February 1899". No effort has been made by us to clarify the dates of separates, but zoologists interested in exact dates of publication should examine them in critical cases.

SUPPLEMENTS TO THE "EZHEGODNIK"

Supplements ("Prilozhenie k Ezhegodniku ...") were published to vols 11-15 and 32. They comprise Oshanin's catalogue of the Palaearctic Hemiptera, his bibliographic index to vols 1-15 of "Ezhegodnik", and Kharitonov's catalogue of Russian spiders. For further information, see Table 2.

"TRUDY"

General

Volumes 1, 2 and 4-9 each were published in issues, the actual number of which varied from two to four. Pagination is continuous in volumes 1-5, 8, and 9, but separate in each issue of volumes 6 and 7. Starting with volume 10, volumes are not subdivided into issues (except for volumes 260 and 262, both in two parts with separate pagination). Except for volumes 1-4 and 6, each volume and each issue in volumes subdivided into issues has a particular title. Most volumes are collected papers ("sborniki"), but some are monographs. Initially, the serial was published by the Publishing House of the USSR Academy of Sciences, since 1964 renamed in Publishing House "Nauka". In 1970's academic institutes received a permission to act as publishers, and most volumes were published by the Zoological Institute in this way using various typographies. Single volumes were published by other publishers (Gidrometeoizdat, Pensoft, KMK).

Changes of the title

The Russian title has been changed as follows: Vols 1-45: Trudy Zoologicheskogo instituta Akademii nauk Soyuza Sovetskikh Sotsialisticheskikh Respublik;

Vols 46-178, 180-184, 186-192, 194-215, 217-243: Trudy Zoologicheskogo instituta Akademii nauk SSSR:

Vols 179, 185, 193, 216, 244-308: Trudy Zoologicheskogo instituta Rossiiskoi akademii nauk.

In vol. 1 to vol. 7, nos 1 and 2, and in vol. 8, no. 1, the French subtitle was used ("Travaux de l'Institut Zoologique de l'Académie des Sciences de l'URSS"). Between 1948 and 1975, no subtitle in foreign language was included. Starting with vol. 60, the English subtitle ("Proceedings of the Zoological Institute, Academy of Sciences of the USSR"; later, "Proceedings of the Zoological Institute, Russian Academy of Sciences") received increasing use and is currently included in each volume.

Particular titles of volumes

A list of these titles is given as a supplement in the following order: volume (issue) number, Russian title (if present), title in foreign language [in brackets]. The latter is marked with an asterisk if copied from the volume (misprints are corrected, but not bad translations or discrepancies between the Russian and English titles). When the title in foreign language is absent, the Russian title is translated into English by the authors of this paper.

Supplement. Particular titles of the "Trudy"

5, no. 1, H.Я. Кузнецов, Арктическая фауна Евразии и ее происхождение (преимущественно на основе материала по чешуекрылым) [*N.Ja. Kusnezov, The Arctic fauna of Eurasia and its origin (a study based mainly on Lepidoptera)].

5, no. 2, Л.С. Берг, Система рыбообразных и рыб, ныне живущих и ископаемых [*L.S. Berg, Classifi-

cation of fishes, both recent and fossil].

5, no. 3-4, В.И. Жадин, Фауна рек и водохранилищ (проблема перестройки фауны рек СССР в связи с строительством гидротехнических сооружений) [*V.I. Shadin, The fauna of rivers and water reservoirs (the problem of reconstruction of the fauna of rivers under the influence of hydrotechnical buildings)].

7, no. 1, Сборник работ по проблеме реконструкции фауны Волги, I [*Recueil des travaux sur le problime de la reconstruction de la faune de Volga, I].

7, no. 2, Сборник работ по продуктивности моря [*Recueil des travaux sur la productivitй de la mer].

7, no. 3, Сборник работ по систематике, зоогеографии и экологии [Collected papers on systematics, zoogeography and ecology].

7, no. 4, Сборник работ по фауне Телецкого озера [Collected papers on the fauna of Teletskoe lake].

8, no. 1, Сборник работ по изменчивости и эволюции [*Recueil des travaux sur la variabilité et йvolution].

8, no. 2, C.У. Строганов, Систематика кротовых (Talpidae) [S.U. Stroganov, Systematics of moles (Talpidae)].

(Talpidae)]. 8, по. 3, Сборник работ по проблеме реконструкции фауны Волги, II [Collected papers on the problem of reconstruction of the Volga fauna, II].

8, no. 4, Сборник работ по фауне Средней Азии и сопредельных стран [Collected papers on the fauna of Middle Asia and adjacent countries].

9, no. 1, Сборник работ по гидробиологии Средней Азии [Collected papers on the hydrobiology of

Middle Asial.

9, no. 2, Сборник работ по нематодам сельскохозяйственных растений, II [Collected papers on the nematodes of agricultural plants, II].

9, по. 3, Сборник работ по энтомологии [Collect-

ed papers on entomology].

9, no. 4, Сборник работ по позвоночным животным [Collected papers on vertebrate animals].

10, Сборник работ по фауне Средней Азии [Collected papers on the fauna of Middle Asia].

- 11, Сборник работ по зоологическим проблемам полезащитного лесоразведения [Collected papers on the zoological problems of field-protective forestation].
- 12, Описание новых видов фауны Советского Союза [Description of new species in the fauna of the Soviet Union].
- 13, Сборник работ в честь семидесятилетия члена-корреспондента Академии наук СССР профессора Валентина Александровича Догеля [Collected papers to the 70th birthday of Professor Valentin Aleksandrovich Dogiel, Corresponding Member of the USSR Academy of Sciences].
- 14, И.И. Соколов, Опыт естественной классификации полорогих (Bovidae) [I.I. Sokolov, An attempted natural classification of the hollow-horned ruminants (Bovidae)].
- 15, Сборник работ по энтомологии [Collected papers on entomology].
 - 16, Сборник работ по фауне районов среднего и

нижнего течения р. Урала и Волжско-Уральского междуречья [Collected papers on the fauna of regions adjacent to the middle and lower Ural and the Volga-Ural interfluve].

17, Сборник работ по изучению позвоночных животных [Collected papers on vertebrate animals].

18, Описание новых видов фауны Советского Союза [Description of new species in the fauna of the Soviet Union].

19, Сборник работ по паразитологии [Collected

papers on parasitology].

20, Л.С. Берг, Система рыбообразных и рыб, ныне живущих и ископаемых, 2-е изд., испр. и доп. [L.S. Berg, Classification of fishes, both recent and fossil, ed. 2, corrected and augmented].

21, Академику Евгению Никаноровичу Павловскому к 70-летию со дня его рождения [То 70th birthday of Academician Evgeniy Nikanorovich Pavlovski].

22, Материалы по истории фауны четвертичного периода (антропогена) СССР [Contributions to the history of the fauna of the USSR in the Cenozoic (Anthropogene)].

23, Сборник работ по энтомологии [Collected pa-

pers on entomology].

24, Материалы по изучению фауны и экологии насекомых Ленинградской области [Contributions to the study of the fauna and ecology of insects in Leningrad Province].

25, Морфология и биология позвоночных животных [Morphology and biology of vertebrate animals].

26, Йтоги Северо-Кавказской гидробиологической экспедиции [Results of the North Caucasus hy-

- drobiological expedition].
 27, Фауна и экология насекомых Туркменской ССР (Научные итоги экспедиции 1951-1953 гг. Зоологического института АН СССР и Института зоологии АН Туркменской СССР в Западную Туркмению) [The fauna and ecology of insects in the Turkmenian SSR (Scientific results of the expedition of Zoological Institute of the USSR Academy of Sciences and Institute of Zoology of Academy of Sciences of the Turkmenian SSR to Western Turkmenia in
- 1951-1953)]. 28, Материалы по паразитологии рыб дальневосточных морей [Contribution to the parasitology of fishes from Far Eastern seas].

29, Морфология и экология позвоночных животных [Morphology and ecology of vertebrate animals].

- 30, Новые виды фауны СССР и сопредельных стран [New species in the fauna of the USSR and adjacent countries].
- 31, Фауна Ленинградской области и Карелии. Материалы по фауне беспозвоночных [The fauna of Leningrad Province and Karelia. Contributions to the fauna of invertebrates].
- 32, Загрязнение и самоочищение реки Оки [Pollution and natural purification of the river Oka].
- 33, Морфология позвоночных животных [Morphology of vertebrate animals].

34, Новые виды насекомых фауны Казахстана [New species of insects in the fauna of Kazakhstan].

- 35, Фаунистика и экология животных. Памяти академика Е.Н. Павловского [Faunistics and ecology of animals. In memory of Academician E.N. Pavlovski].
- 36, Экология вредных насекомых и энтомофагов [Ecology of harmful insects and entomophages].
- 37, Новые виды насекомых фауны СССР и сопредельных стран [New species of insects in the fauna of the USSR and adjacent countries].

38, Полезные насекомые – опылители и энтомофаги [Useful insects: pollinators and entomophages].

39, Биология птиц [Biology of birds].

40, Миграции птиц Прибалтики [Migrations of birds from Baltia].

- 41, Вредные и полезные насекомые Дальнего Востока СССР [Harmful and useful insects from the Far East of the USSR].
- 42, Моллюски и их роль в биоценоцах и формировании фаун [Molluscs and their role in biocenoses and formation of faunas].
- 43, Новые виды беспозвоночных животных фауны СССР и сопредельных стран [New species of invertebrate animals in the fauna of the USSR and adjacent countries].
- 44, Морфология беспозвоночных животных [Morphology of invertebrate animals].
- 45, Загрязнение и самоочищение реки Невы [Pollution and natural purification of the river Neva].

46, Морфология низших позвоночных животных [Morphology of lower vertebrate animals].

- 47, Орнитологический сборник. К 100-летию со дня рождения академика П.П. Сушкина [Collected ornithological papers. To 100th birthday of Academician P.P. Sushkin].
- 48, Морфология и экология позвоночных [Morphology and ecology of vertebrates].
- 49, Материалы по фаунам антропогена СССР [Materials on the Anthropogene faunas of the USSR].
- 50, Экологические и физиологические аспекты перелетов птиц [Ecological and physiological aspects of bird migrations].
- 51, Фауна грунтовых вод Средней Азии [The fauna of subterranean waters in Middle Asia].
- 52, Новые виды морских и наземных беспозвоночных [New species of marine and terrestrial invertebrates].
- 53, Теоретические вопросы систематики и филогении животных [Theoretical problems of the systematics and phylogeny of animals].
- 54, Функциональная морфология млекопитающих [Functional morphology of mammals].
- 55, Йсследования по биологии птиц [Studies on bird biology].
- 56, Биологическая продуктивность северных озер. 1. Озера Кривое и Круглое [Biological productivity of northern lakes. 1. Lakes Krivoe and Krugloe].
- 57, Биологическая продуктивность северных озер. 2. Озера Зеленецкое и Акулькино [Biological productivity of northern lakes. 2. Lakes Zelenetskoe and Akulkino].
- 58, И.М. Медведева. Орган обоняния амфибий и его филогенетическое значение [I.M. Medvedeva, Olfactory organ of amphibians and its phylogenetic significance].
- 59, Е.В. Козлова, Птицы зональных степей и пустынь Центральной Азии [E.V. Kozlova, Birds of zonal steppes and deserts of Central Asia].
- 60, Физиологические основы миграционного состояния птиц [*Physiological aspects of the migratory state of birds].
- 61, Новые виды животных [New species of animals].
- 62, Растительноядные насекомые Дальнего Востока [*Phytophagous insects of the Far East].
- 63, Фауна и флора антропогена северо-востока Сибири [The Anthropogene fauna and flora of northwestern Siberia].
- 64, Новые виды насекомых [*New species of insects].

- 65, Исследования по биологии птиц [*The studies on avian biology].
- 66, Эволюция грызунов и история формирования их современной фауны [*Rodents evolution and history of their recent fauna].
- 67, Полезные и вредные насекомые Дальнего Востока [*Beneficial and injurious insects of the Far East]
- 68, Систематика, морфология и биология птиц [Systematics, morphology and biology of birds].
- 69, Фотопериодические реакции насекомых [Photoperiodic reactions of insects].
- 70, Фауна насекомых Дальнего Востока [*The fauna of insects of the Far East].
- 71, Новые виды насекомых Средней Азии и Казахстана [*New species of insects from Middle Asia and Kazakhstan].
- 72, Мамонтовая фауна Русской равнины и Восточной Сибири [*Mammoth fauna of the Russian Plain and Eastern Siberia].
- 73, Мамонтовая фауна и среда ее обитания в антропогене СССР [*The mammoth fauna and its environment in the Anthropogene of the USSR].
- 74, Герпетологический сборник [*Herpetological collected papers].
- 75, Систематика и морфология млекопитающих [*Systematics and morphology of mammals].
- 76, Систематика и биология редких и малоизученных птиц [*Systematics and life history of rare and little known birds].
- 77, Ультраструктурные особенности наземных членистоногих [*Fine structural peculiarities of terrestrial arthropods].
- 78, Фауна и систематика одноклеточных животных [*The fauna and systematics of the unicellular animals].
- 79, Функциональная морфология и систематика млекопитающих [*Functional morphology and systematics of mammals].
- 80, Морфология, систематика и филогения моллюсков [*Morphology, systematics and phylogeny of molluscs].
- 81, Новые виды насекомых Сибири и Дальнего Востока [*New species of insects from Siberia and the Far East].
- 82, Филогения и систематика насекомых [*Phylogeny and systematics of insects].
- 83, Морфология и систематика насекомых [*Morphology and systematics of insects].
- 84, Эволюционная морфология беспозвоночных [Evolutionary morphology of invertebrates].
- 85, Фауна и экология паукообразных [*The fauna and ecology of Arachnida].
- 86, Морфология и экология инфузорий, фораминифер и акантарий [*The morphology and ecology of the Infusoria, Foraminifera and Acantharia].
- 87, Систематика и экология споровиков и книдоспоридий [*The systematics and ecology of the Sporozoa and Cnidosporidia].
